SSB & SSS Series

SSB Series is our premium sheet stock. High polished brass with clear lacquer is coated with Victory's ultra thin color, providing ease in Standard engraving and bright glossy Laser engraving. SSS Series maintains the same standard but on economical brass plated steel. The SSS Series is available in a larger variety of colors.

Custom colors available on request.

SSM1 Series Economical mill finish brass steel. Laser quality. The SSM1 Series now comes in four new colors.

THE LASER SHOP

Zap Nine exciting series, developed specifically for computerized laser engraving machines. IPI's Laserables technology eliminates problems with flaming, melting and yellowing common when laser engraving regular engraving plastic. These materials can also be rotary engraved.

Laserables (FRONT & REVERSE)

IPI's ultimate laser engraving series: 55 stock products, in front and reverse engravable versions and a variety of colors and looks. UV-stable for exterior as well as interior use. Laserables have the most durable micro-surface in the industry, .0025", which allows user to laser engrave and/or profile cut with superior ease and quality.

All LASERABLES also available in a translucent version for backlighting. Matte or Gloss version available in all products. Any IPI color or look can be made into a LASERABLES.

Brushed Satins

IPI's popular lustrous satin look, now with the .005 advantage for greatly improved fine-line engraving without sacrificing durability. Cutters last longer, work looks better, and fine detail can be achieved not possible with standard .010" material.

The Spotlight Series — Nightlites

Nightlites incorporate a non-radioactive chemical light source in a flexible plastic substrate that glows in total darkness after exposure to light. On the reverse engraving version, the background glows — engraved letters can be filled with acrylic paint, or vinyl letters can be applied. On the front surface engraving version the engraved letters glow.
