

THE LASER SHOP

Zap Nine exciting series, developed specifically for computerized laser engraving machines. IPI's Laserables technology eliminates problems with flaming, melting and yellowing common when laser engraving regular engraving plastic. These materials can also be rotary engraved.

Laserables (FRONT & REVERSE)

IPI's ultimate laser engraving series: 55 stock products, in front and reverse engravable versions and a variety of colors and looks. UV-stable for exterior as well as interior use. Laserables have the most durable micro-surface in the industry, .0025", which allows user to laser engrave and/or profile cut with superior ease and quality.

All LASERABLES also available in a translucent version for backlighting. Matte or Gloss version available in all products. Any IPI color or look can be made into a LASERABLES.
